

# Give your visitors confidence in the air quality of your building.

## Monitor & Verify

Monitor air quality, airflow, occupancy and more against national standards from OSHA, CDC, and more.

## Grow New Business

Improve guest experience and employee retention by providing peace of mind with dashboards that prove good indoor air quality.

## Improve Guest Experience

Be the first to know about smoke, chemical smells, and other unpleasant odors that are likely to impact guest experience.

## Client Trusted.

“ We have hundreds of buildings at CPS, so flexibility and ease of install are critical. HawkenAQ works perfectly across our portfolio, and it was *easier to install than I could have imagined*. Their product has given our staff and students peace of mind going back to school amidst difficult times. ”

**Paul Valente**

Facility Automation Architect

## More Than Just Air Quality.

Improve ROI and prevent loss & property damage with smart monitoring solutions from Hawken.

### Other Solutions

Uncover leaks before damage to your building with instant leak detection.
